Gregorius Agung Nugroho, Web Developer

Tangerang, Indonesia, +6285219574988, gregorius.nugroho@student.umn.ac.id

PROFILE

I'm an enthusiastic person who can learn quickly and easy to adapt. I love to search and explore something new. I'm active in projects, organizations, and activities on my campus. But also, I have really good responsibility and focus when I have a job to do. I do love to help others and I can work professionally in a team, collaboration, and support each other.

My goal is to become a backend developer but i can also do frontend development. I have several skills that support my goals such as Expert in PHP, Javascript, MySQL, PostgreSQL, Java, and deployment with Digital Ocean, Vercell, and Heroku. I'm passionate about quality code, security, and performance.

I have a big commitment that I will contribute a lot to this company. I choose this company because I want to develop my skills to industry professional standards.
